John I would like very much to do so however we have been trying to get a substantive 30b6 deposition of Cargill for months. We simply need this "lite" portion of our 30b6 deposition in advance of the PI. I've cut in half what was originally planned and that is the best I can do at this time.

John,

After further consideration I have agreed, as you suggested, to reduce the Rule30(b)(6) inquiries for both Cargill entities in order to complete them in one day instead of two. We will re-notice Cargill entities after the PI to complete our 30b6 inquiry of both entities. The previously noticed date of January 31, 2008 will not be needed. This will also eliminate a conflict with another deposition set on the 31st of January. Since I have not heard otherwise I assume you agree that we can conduct these in your offices in Tulsa.

Rick
