Re: *State of Oklahoma v. Tyson et al.*, No. 05-CV-0329-GKF-SAJ

Dear Michael:

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD91, along with an index of the data being produced.

Included with this production is sampling that has been undertaken by the Oklahoma Scenic Rivers Commission (OSRC). As I have stated before, while the production of the OSRC data may be covered by other discovery from the Defendants, it is not subject to the Court's January 5, 2007 Order or the Court's Order which requires expedited production of the results of the analysis of data collected by the State's retained experts. These materials are being produced in this expedited fashion as an accommodation.

This production also includes the reports of data which was previously produced in a preliminary form and which has now completed the Plaintiff's internal quality assurance and quality control reviews.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock
